ABOUT ME

Computer Science Engineering student with a strong foundation in programming, software development, data analysis, and cloud technologies. Hands-on experience through internships and funded projects in Artificial Intelligence, UI/UX design, and web development. Passionate about building practical, user-centric solutions and continuously enhancing technical and problem-solving skills to contribute effectively to real-world software projects.

SKILLS

- **Languages & Databases:** Python, C, JavaScript, SQL, MySQL
- **Frontend Development:** HTML, CSS, Responsive Web Design, React, UI/UX Design Principles
- **AI, Data & Analytics:** Generative AI, Machine Learning, AI Integration, Data Analysis, Data Visualization, Power BI
- **Cloud & Development Practices:** Cloud Computing, AWS, Docker DevOps Practices, Workflow Automation
- **Developer Tools & Platforms:** Git, GitHub, VS Code, Vercel
- **Soft Skills:** Problem Solving, Analytical Thinking, Team Collaboration, Communication, Adaptability

EXPERIENCE

Artificial Intelligence & Data Analytics Intern - IPSR Solutions Ltd | July 2025 (1 Month)

- Worked on Generative AI concepts, Machine Learning models, and RAG-based chatbot development.
- Applied Python and Power BI for data analysis and visualization tasks.
- Gained practical exposure to real-world AI workflows and model integration.

UI/UX Design Intern - Cognifyz Technologies | April 2025 (2 Months)

- Designed user interfaces with a focus on usability and user experience enhancement.
- Created wireframes and improved design flow based on user-centric principles.

DevOps & Cloud Intern – Nest Digital | February 2026 (1 Month)

- Deployed full-stack and static web applications using AWS and GitHub Pages
- Applied Git workflows (branching, commits, push/pull) for efficient version control
- Utilized Docker for containerization and gained hands-on experience in cloud deployment practices

PROJECTS

Hostel Maintenance and Utility Management System

HTML, CSS, JavaScript, Django, SQLite

- Built and developed a Dockerised, HostelHub, a full-stack web application for digital hostel maintenance management with role-based access and real-time tracking.
- Dockerised the application and hosted it on AWS EC2, ensuring reliable cloud -based availability.
- Implemented real-time status tracking, worker assignment, and admin analytics dashboard.

CloudBlog – Cloud-Hosted Blogging System (AWS Infrastructure)

HTML, CSS, JavaScript, AWS, Docker, Git

- Designed and developed a responsive blogging web application.
- Deployed on AWS, containerized using Docker, and managed with Git
- Implemented features like blog posting and search functionality

Smart Pill Box – I2U 2025 Funded Project

- Contributed to the design of an automated healthcare solution for medication adherence, approved for Phase II funding

College Website – Docker Practice

HTML, CSS, Docker

- Built and containerized a static website using Docker, gaining hands-on experience in application packaging

EDUCATION

B.Tech in Computer Science Engineering

APJ Abdul Kalam Technological University | 2023 – 2027 | CGPA: 8.7

Amal Jyothi College of Engineering, Koovappally

Higher Secondary Education (Science)

CBSE | 2023 | 89%

St. Antony's Public School, Anakkal

Secondary Education (CBSE)

CBSE | 2021 | 95%

St. Antony's Public School, Anakkal

CERIFICATIONS & ACHIEVEMENTS

- NPTEL Online Certification – Database Management System (IIT Kharagpur)
- DevOps on AWS and Project Management (AWS)
- Google Cloud GenAI Certifications (Vertex AI, LLMs, MLOps, Responsible AI, Transformers)
- AI Fundamentals - IBM
- Oracle Java Foundation Learner's Certification - Oracle Academy
- Complete Front-End Development Journey (HTML5, CSS3, JavaScript) - Infosys Springboard
- Web Developer Bootcamp 2025 - Udemy
- Introduction to Agile Development and Scrum - IBM
